Chemical Engineering Processes and Products

BIO-SOLVENT DEGREASER QS-70 (QUICK SPLIT)

Removes grease, tar and oil safely and quickly

- Has excellent dirt, oil and grease removal properties.
- Contains no water, is directly emulsifiable with water.
- Before use, may not be diluted with water or solvent.
- Has very rapid de-emulsifying properties.
- The water layer, after separation into an oil separator of sufficient capacity, has a chemical oxygen demand (COD) which is lower than 500 mg / l oxygen.

Where to use

Concentrated, highly emulsifying, pleasantly scented, bright, white solvent degreaser for cold cleaning in immersion baths, low pressure spraying methods or manually with a brush of machine and engine parts.

Safe for steel, stainless steel, copper, zinc, magnesium, aluminum, porcelain, glass, ceramic tiles, ceramics, concrete, terrazzo, marble, wood, wool, cotton and synthetic fibers.

Packing

Drum of 200 l.
Drum of 60 l.
Polydrum of 25 l.

How to use

Engines, chassis, machinery, oil tanks and concrete floors:
Damp surfaces to be treated with **BIO SOLVENT DEGREASER QS-70** using nozzles or brushes. Leave for 10 - 15 minutes, then rinse with a powerful jet of water.

General degreasing:

Using **BIO-SOLVENT DEGREASER QS-70** in a degreasing bath. Leave for 5 minutes to take effect. Take out of the bath and rinse with water.

Remove wax layers of new cars:

Apply **BIO-SOLVENT DEGREASER QS-70** by spraying or with a cellulose sponge until the entire surface is covered. Rinse off with warm water. (max. to 60° C).

Note: The water after rinsing must be sent to the sewer through an oil separator of sufficient capacity. In the oil separator, the oil portions, and the solvent must be separated off from the wastewater.

Note: Detergents influence the de-emulsifying action of **BIO-SOLVENT DEGREASER QS-70**.

Properties

physical aspect	: Clear, white liquid
pH	: neutral
odor	: light
Solubility in water	: emulsifies

Safety

The safety information of this product is mentioned in our Safety Data Sheet (MSDS).
If using cleaning- and/or disinfectant products use always personal protective equipment.

* Only to be used by professional users.
