

BRIGHTENER

- **BRIGHTENER** Is specially formulated to clean, shine, color repair and deoxidize aluminum surfaces in one treatment.
- **BRIGHTENER** Is excellent for cleaning of transport, but also successfully applied in immersion tank cleaning of smaller parts.
- Biodegradable

Where to use

Liquid, acidic, moderately foaming colorless cleaning and reconditioning compound for aluminum and aluminum alloys.

BRIGHTENER is excellent for cleaning and reconditioning of aluminum castings and various smaller aluminum components.

Safe for painted surfaces; Controlled etching of aluminum. Mild reaction on stainless steel; affected steel, brass, copper, zinc and magnesium.

Packing

Polycontainer à 10 kg

How to use

Concentration: 10 - 25% **BRIGHTENER** by volume in water.
Dampen the surface with water. Apply the solution by brushing or spraying. Let it soak for about 5 minutes; there will be some foam, brush this foam and then spray with high pressure water and clean the surfaces off.

Properties

physical aspect	: Colorless liquid
pH at 5% by volume in water	: 2.0 ± 0.5
odor	: mild
Solubility in water	: full
