Packaging

Can of 25 ltr

How to use

Manual application:

Daily application : 5 - 20 ml.

Periodical cleaning: 20 - 50 ml PAN 2000 per litre lukewarm water. Wet the materials to be cleaned with the solution, let it soak for a few minutes. Scrub or brush a little if necessary.

High pressure cleaning: If desired, wet the materials with the solution by means of low-pressure spraying apparatus, let it soak, and spray off with high-pressure.

Steamclean-apparatus: 12 - 24 g/l water in the cleaning tank.

High-pressure spray cleaning: 5 g/l water.

In all cases: Rinse with clear water afterwards.

Properties

Physical aspect:	: pink liquid
pH 5% solution	: 11,4± 0,5
Odor	: mild
Solubility in water	: complete
