

ROGYPAL AC-315

Descaler

ROGYPAL AC-315 is specially designed for removal of scale deposits on slats of pools, but without any objection it can be used on any acid resistant surfaces because of its excellent lime removing performance.

Where to use

Advanced revolutionary product for descaling all surfaces which are acid resistant.

Packaging

Box of 2 cans of 6 kg.

How to use

Lamella:

Use the product undiluted. Moisten with the use of a nebulizer the entire slats with **ROGYPAL AC 315**, let it perform its work for 1-4 hours (depending on pollution). If the lime is removed, hosing down the slats with high-pressure. If necessary, repeat the above operation.

The slats should be cleaned for at least 2 times per year

Note: Do not use on not acid resistant surfaces.
