

## CYNDET FC

### ALKALINE FOAM/CHLORINE CLEANER

- **Cyndet FC** is specially designed for the food industry for removing protein deposits and organic soils, like fruit juices, starch and other food residues.
- Cleaning and whitening of rubber conveyor belts, walls, painted surfaces, food-installations, kettles, tiles etc.
- **CYNDET FC** is highly suited for use as foam cleaner in high-pressure foam equipment..
- Phosphate-free.
- Biodegradable.

#### Where to use

**CYNDET FC** is a highly concentrated, alkaline liquid for cleaning, deodorizing, bleaching and brightening of installations in food plants in one action.

Safe for: steel, stainless steel, ceramic tiles, plastics, porcelain, rubber and concrete.  
CORRODES ALUMINIUM!

#### Packing

container of 10 kg  
container of 25 kg  
drum of 200 kg

#### How to use

Foam-generating equipment (contents 60 litres):

4 – 6 litres of Cyndet FC for foaming horizontal and vertical surfaces.

Manual use:

For cleaning conveyor belts soiled with starch use a solution up to 10%.

Manual use general:

Dosage: 2 – 10% by volume of water.

N.B.: In all cases rinse thoroughly with fresh water afterwards.

If disinfection is desirable, this should be done with one of our authorized disinfectants.

#### Properties

Physical aspect	: pale-yellow liquid
pH 5% solution	: 12,5 ± 0.5
Odor	: chlorine
Solubility in water	: complete

#### Safety

- Do not mix Cyndet FC with other chemicals.
- Use Cyndet FC-solutions immediately after preparation.
- Cyndet FC contains chlorine and is therefore tenable for a limited period of time.
- Store above 5° C.
